Process: Names of potential nominees (and self-nominations) will be solicited and collected through the NCRA Office. This occurs every five years across the regional associations in a distinct order (NC, S, ARD, W, NE). The NCRA Office will contact all nominees and provide information on the application process, as well as answer any questions on responsibilities. In addition, our most recent ESS Chairs have been Deb Hamernik or Steve Slack, they could be consulted concerning the duties and responsibilities. Nominees may develop a half-page narrative (see below) for submission to NCRA office by June 30. The NCRA Multistate Review Committee will review any material submitted, identify any additional information needed and then the nominations will be forwarded to the “director” in each state. Each state will provide a numeric ranking (1=highest) for each candidate and so on, then forward to NCRA Office. The NCRA Office will summarize the results, provide to the Review Committee for oversight and results will be shared with all NCRA directors at the NC Mini Land-grant meeting and ratified by NCRA.
